AMERICAN MATTERS IN CANADA.—Not long since in the Canadian Parliament, a bill was offered requiring the organization of the militia, for the purpose of being prepared to fight the United States. On that occasion, Col. Arthur Rankin, a member of the same body, (and who offered his services to the United States, and was commissioned a Colonel in the Union army) made a powerful speech against the bill, in which he said:

"A moment's real reflection, Mr Speaker, ought to be sufficient to convince every honorable member that such a law never could have been carried out: its provisions were oppressive in the extreme, and to have enforced them would have been an impossibility. Sir, for us to talk of placing Canada in a state of defense against the power of the United States Government is as ridiculous as it would be for a mouse to assume an attitude of defense towards an elephant. The army of that nation is but little inferior in discipline to the best armies of Europe; it is superior in intelligence to any army in the world; it is as well armed and equipped as the army of any European power; it is maintained at the cost of a daily expenditure greater than the yearly cost of even such an organization as that proposed by the late government, and in case of emergency, its numbers, now exceeding half a million, can be doubled. Such being the power of our republican neighbors, it is obvious that for us to talk of defending ourselves against the government of that country, if disposed to attack us, is simply absurd. But, Mr Speaker, we have no cause for apprehension. In the first place, I don't believe there is any ill-feeling towards us as Canadians, in the United States, or, if there is such a feeling, it is because we are connected with Britain, and not on our account."

There is great force in the sentiments contained in this extract, especially in the concluding paragraph.

CURRANT WINE.—To one quart of currant juice add two quarts of water, and two and a half pounds of coffee sugar to the gallon. Let it work in the cask, and bottle at six months.—*California Farmer.*

The three pounds of coffee-sugar—that is, clarified brown sugar—by fermentation, will be converted into *rum*, and thus changed from sugar, will preserve the currant juice.

SATURDAY MORNING, AUGUST 8 1862

The Simsean Indians

These Indians are found in the regions in which Fort Simpson is situate, in British Columbia. Compared with the various tribes of Flat-head Indians found in Oregon and Washington Territory, they are a very superior race, mentally and physically. They are said in appearance, to resemble much the Tartar type. The men and women are of light color, and in the dress of Chinese would be readily mistaken for them.

A writer in the California *Farmer*, who has contributed to that journal a large number of papers on the "Indianology of California," thus speaks of these Indians: "The Simseans are by far the most intelligent and civilized Indians on the Northern coast. They are artificers in stone and precious metals, carving quaint images in the slate stone found in their country, or making ear-rings, finger rings and bracelets of silver and copper, in a style of workmanship that would do credit to white workmen. The silver they get from the coin they procure from the whites. Their carved stuck, whether in stone or wood or metal is readily to be obtained in Victoria. Its quaint design and marvelous skill of execution have elicited encomiums of praise from every beholder."

There are various theories regarding this race. The knowledge they exhibit of some mechanical arts so much beyond other native tribes by which they are surrounded—has been a matter for wonder and curiosity. Some have supposed that a vessel from Japan, in a remote age, may have been driven on the coast, and the sailors and passengers, unable to return, may have mixed with the people and that the art of carving and working metals may have been learnt from them. If this be so, such an accession to their population must have been in a very remote day; for the Indians now have not the slightest tradition which can be made to prove the occurrence suggested. In this case, as in all other inquiries of the origin of the Indian tribes, and of their early history here, the deeper we delve in their mystical lore—if they have any—the more we are confused and confounded.

We *very nearly know* that many long years ago, a craft, perhaps from the western coast of Asia, was wrecked near the mouth of the Columbia, and the people, who survived, mixed their blood with the Indians in that region. Why may not a similar shipwreck be made to account for the superior civilization of the Simseans?

War upon the Government

In the Secesh sheet, published at Eugene, we find the following:

"Treasury Notes."— * * * "We shall oppose their currency in Oregon on the ground that they will inflate the country with moneys, the value of which will be governed by the successes or reverses of the Federal armies East of the Rocky Mountains."

The object of sending these notes to the Pacific Coast, is to pay the ordinary expenses of the Government here—mail contracts—(the Overland Mail,) civil officers, and the military forces. If the Eugene sprout of Secessionism can by any means prevent their circulation on this Coast, it will do a good deal towards disorganizing and breaking up the Government here,—an object long sought by its owners.

Absolutism.—The British *Colonist* complains bitterly against certain despotic acts of the Governor of Vancouver Island, in which it is alleged that he has assumed high handed and absolute power, putting at defiance statute law and all local regulations enacted by the previously supposed highest authorities of the land. The British yoke is again galding the necks of our neighbors in British Columbia, which may yet result in downright secession in that quarter. Old England may feel the effects of insubordination within her own dominions again, and should such be the case, how would she like to see a few shiploads of supplies in the way of arms, provisions and equipments take their course towards Vancouver Island, eh? The case being altered might alter the case in this instance.

President Lincoln and the Confiscation Bill.—The regard of the President for the Constitution is evinced in his opposition to the Confiscation bill. The Constitution provides that confiscation of the property of the traitor shall not extend beyond his natural life. The bill did not include this provision—hence his opposition to it. Congress subsequently adopted a joint resolution covering the case and the President signed them both.

President Lincoln will not in any event be found to *appear* to violate the Constitution. It is true that the first bill could not override the Constitution in regard to the confiscation of the property of rebels—but the President thought it ought not to appear to do this. All is right now.

The steamship *Pacific* will sail for San Francisco *via* Victoria about Tuesday next.

From the Northern British Possessions

We have Victoria papers to the 4th August. The people of Victoria complain of dull times. The weekly [illegible] from the Frazer river mines amounts [illegible] thousand dollars a trip. The paper has news of new gold discoveries in the Cariboo which exhibit large prospects and give confidence that large amounts of gold will be obtained hereafter—another year [illegible]. The diggings [illegible] are spotted. [illegible] appear to be satisfied. [illegible] in a bad temper. [illegible] however, gold digging will be a permanent business in British Columbia, and will be a source of great wealth to the country. For many reasons the mines cannot be worked as long in the season as ours, and are not so readily reached.

The *Colonist* of the 1st says: The steamer *Mount* [illegible], formerly a Sacramento river boat, and which has been for four years on the Frazer river, is now [illegible] for Columbia river, where freights are high and steamboats correspondingly scarce. She will start in a few days for the Columbia under the command of Capt. Haley, who has undertaken the perilous task of navigating her to that locality. She was originally brought here in 1858 on a large barge.

The same paper says the steamer expected is the last under the mail subsidy contract, which ends with the month of July. The steamers in future will leave San Francisco for Portland and Victoria on the 7th, 17th and 27th of each month. Those of the 7th and 27th will touch at Portland on the upward trip, and that of the 17th will come to Victoria direct. They will continue to carry the mails, but whether for a pecuniary consideration or only for glory we cannot say.

We find the following remarkable piece of news in the *Colonist*:

"Reduced.—The salaries of many of the Washington Territory office holders have been reduced 200 and 300 per cent. by the United States Government. The officials all talk of resigning."

If the *whole* of the salaries of the Washington Territory officials are cut off and they are compelled beside to pay 200 per cent. on their original salaries to Government, they will be likely to resign. That would be paying too much for the glory of holding office.

In Australia, lately, a flock of sheep numbering 3,780, was condemned by a Government Inspector as being infected with scab, and all slaughtered and burned to prevent the spread of the disease.

Arrived.—The *Wilson G. Hunt* arrived at an early hour yesterday afternoon from the Cascades with about 60 passengers, but little dust, and no later news of importance from the mines, as there was no connection beyond the Dalles.

By the politeness of Major Owens, of Fort Owens, Bitter Root valley, we are informed that new discoveries of rich gold mines have been made in Deer Lodge valley which pay at least, after removing the top dirt, $5 per day to the hand, including the time required in stripping. These diggings extend throughout the entire valley, and parties who have thoroughly prospected the country state that wherever they stuck the spade down they were sure to find the dust in paying quantities. From an acquaintance, who resides on the Missouri side of the divide, Major Owens was informed that equally as rich mines have been discovered on the heads of the several streams putting into the Missouri, and which lap with those of the head waters of the Columbia. Considerable excitement prevails at Salmon river, Colville and other mining localities previously discovered in that section relative to these new mines, and many who have no immediate prospect of realizing large profits from their labor are making for those new diggings in Deer Lodge valley with all possible speed. The Major further informs us that he passed the advance party of the immigration coming by way of Fort Benton, at the crossing of Bitter Root river about nine days ago. Some eight hundred immigrants are presumed to be coming by this route, but it is believed that the most of them will stop in the Deer Lodge and Bitter Root valleys. A very large immigration is undoubtedly coming overland by way of South Pass.

The Cost of the War.—The rebel sympathizing press is still harping on the cost of the war as an argument against its longer continuance, and a reason why treason should be allowed its way and the Republic left to destruction. The Federal Tax bill is seized upon with avidity as the basis of fresh appeals to the sordid motives of men. We are told in strains of painful pathos how much more our coffee, tea and sugar will cost us; what fearful taxes our expenditures for tobacco and liquors will be; what a license we must pay to pursue any avocation; what an army of tax collectors will prey upon our substance; and what a mountain of public indebtedness is accumulating against this and coming generations. The logical inference from all this is, that high taxes and a big debt are worse evils than treason, and that it would be better to purchase peace and economy at the price of acknowledging ourselves in the wrong and recognizing the independence of the authors of all our woes. The rebel sophists! They ignore the fact that this is the people's war; that it is the people who voluntarily formed an army of three quarters of a million and told the National Government of their free choice to crush out its enemies at any cost, and to rule forever that [illegible] shall shape American policy. Viewed in this light every cent of additional taxation, every new tax collector, every dollar added to the public debt, every soldier slain in battle, is an irrefutable argument against Secession and in favor of the war for its annihilation. If the rebellion is not crushed out, we shall have more wars, more taxes, more slaughter. End Secession now, and a few years of peace will pay off the debt, restore light taxes, and bring an era of unprecedented prosperity.—*Marysville Appeal.*

Eight thousand tons of Australian coal have been received at San Francisco since July 1st.

SPECIAL DISPATCHES TO THE OREGONIAN.]

LATER FROM THE EAST.

Dates to August 2d.

Yreka, August 4th.—Philadelphia, August 1st.—Between 100 and 400 prisoners at Fort Delaware took the oath of allegiance on Wednesday. The Louisiana Tigers [illegible] especially [illegible] to take the oath.

Latest foreign advices [illegible] indicate any movement [illegible] on the part of the European Governments with reference to intervention in American affairs.

Gen. Pope has advanced beyond Warrentown, Va.

Washington, August 2d.—A dispatch from the head quarters of the army of the Potomac received to-day, says about twelve o'clock last night the rebels opened fire from the opposite side of the river with two batteries of light artillery. The fire was directed at the mail boat landing and the head quarters of Ingalls. Four men were killed and five wounded. Several of our vessels were struck but none seriously damaged. The 32 pounders at Ingalls head quarters soon silenced the rebel fire.

Springfield (Ill.) August 1st.—The adjutant General issued instructions to-day to County Clerks that Assessors shall furnish forthwith lists of able bodied citizens liable to military duty.

New York, Aug. 1.—Gen. Butler has issued orders that all negroes who are ordered by their masters to leave and join the Federals (?) be regarded as emancipated. Masters have in many cases endeavored to reclaim slaves after the use of such expressions.

Gen. Butler, in a note to Reverdy Johnson, said no merchandise, whether cotton or sugar, will in any event, be seized and confiscated by the U. S. authorities. The N. Y. *Times* correspondence from the army of the Potomac, under date of July 31st says two suspicious looking crafts, probably the *Merrimac*, No. 2, and the *Young America* cast anchor yesterday off Turkey Island Bend.

Three of our boats were sent to that vicinity immediately.

The *Monitor* made a reconnoissance, after which the gunboat fleet, including the *Monitor* and *Galena* were ordered to form in line of battle.

A battalion of gunboats reconnoissance near Fort Powhattan discovered no rebels in that vicinity.

The rebel boats were still off Turkey Island Bend.

Delegation of military [illegible] of Southern Ohio as connected with Kentucky called on the Secretary of War and Halleck to-day. The latter expressed himself in favor of using all negroes within our lines and confiscation of all slaves and all property of rebels. Gen. McClellan has been instructed to use all negroes coming within his lines.

San Francisco, Aug. 1.—The colored people had a big time to-day at Hayes Park, over the anniversary of the West India emancipation and of the District of Columbia. After firing 34 guns, speeches appropriate to the cause of freedom were delivered to a large gathering.

Major G. H. Ringgold, paymaster U. S. A., has been promoted to a Lieutenant Colonelcy.

A billiard match last night of 1,000 points, four ball carom game, between Lynch and Little, for $500 a side and the championship, was won by Little by three points. The former at the close offered to play again for $2,500 a side, which was declined.

The Uncle Sam took 230 passengers and $1,513,430 treasure to-day.

There is considerable inquiry in San Francisco markets to-day for foreign wines, liquors and coffee; for the latter article the market is excited at 24@25 cents. Java coffee has advanced one half a cent.

Gold is declining in New York.

The French War on Mexico Unpopular.—The *Eco* [illegible] published at San Francisco, says:

[illegible] the independent press of France condemns the Mexican expedition. In the United States every American paper with an exception, and all the French papers with two exceptions—which are the [illegible] and the [illegible]—raise their voice against this unjust and unpopular war.

Tide of Emigration.—It appears from the statistics of 1860 that during the ten years previous 205,024 of the natives of Free States had emigrated to the Slave States, and that during the same period [illegible] natives of the Slave States had emigrated to the Free States—showing an excess of 100,000 emigrants from the South to the North. The facts suggest the inquiry, if the climate, soil and institutions of the South are better than those of the North (as many pretend to claim), why is it that the balance of emigration is so heavy against the South?—*S. F. Journal.*

The Dead at Island No. 10.—Letters have recently been received at Rochester from General Quinby, stating, as illustrative of the panic and fright of the rebels at the evacuation of Island No. 10, that his troops found in the marshes in the rear of Tiptonville the dead bodies of over three hundred rebels, who had miserably perished by drowning, in fleeing into the swamps in their mad haste to escape from imaginary pursuers. It was surmised that large numbers would yet be found who had died in the same inglorious manner.

A Wealthy Saint.—One of the women belonging to the last batch of newly made Latter Day Saints that passed through St. Joseph, Missouri, on the 14th ult., bound to Mormon land, had in a box which was entrusted to the care of the Express company, ninety seven thousand dollars in gold coin.

A cave was recently discovered in Australia, from the limestone ceiling of which a dog's head stuck out. It was broken off and found to be a complete petrifaction.

The Daily Oregonian.

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

THE DAILY OREGONIAN may be had at the Franklin Book Store, and at Charles Barrett's, Front street.

REVIVING.—A slight sprinkle of rain fell lasting evening, laying the dust somewhat, and reviving the parched appearance of the vegetable kingdom. A little more is needed, but not too much. We are afraid to tamper with the clerk of the weather, lest he should conclude to send us six months' rain "widout sthopping."

BOUND TO SUCCEED.—Mossman & Co.'s Express is bound to succeed, for they have requested us to furnish them with two hundred copies of the WEEKLY OREGONIAN each week, in addition to our former large supplies for the mining regions. This is doing business after our own heart, and cannot but result beneficially to this popular and energetic Express.

SEMINARY IMPROVEMENT.—As will be seen by reference to advertisement, proposals will be received until the 10th inst., for grading and improving the Seminary Block in this city. We are pleased to see this matter taken in hand and hope it may result creditably to that excellent Institution.

FRANKLIN MARKET.—We are requested to announce that the Franklin Market, corner of Front and Taylor streets, will be opened for the accommodation of customers on Monday next. The best of fresh and delicious, tender and wholesome meats of all kinds will be kept on hand at all times, and supplied to customers at very reasonable rates.

STILL A CHANCE.—There is still a chance for about ten or a dozen more who desire to enlist in Uncle Sam's service, in Capt. Spencer's company. We would advise those who intend serving their country in this way, to make application soon, as in a day or two more a sufficient number will have been enlisted to fill up the company. They only want about a dozen more. Don't all speak at once.

BENEFIT.—Don't forget that the inimitable John Wood takes a benefit to-night at the Theatre. An excellent programme is offered for the occasion and we doubt not the evening's entertainment will exceed any thing previously presented by this intelligent troupe to the theatre going public of the city. All who are in the habit of visiting the theatre ought to go to-night, as the occasion will undoubtedly prove a grand affair.

ANOTHER BENEFIT.—We have been requested to announce that Miss Belle Divine will take a benefit at the Theatre on Monday night. We hope that she may be handsomely rewarded on this occasion, as she deserves much praise for her efforts to please the public while engaged in her plays at the Theatre in this city. We bespeak for her an overflowing house.

WILL NOT APPEAR.—We are requested to state that Miss Virginia Lawrence will not appear at the Theatre to-night, in consequence of indisposition.

Young America Engine Co. No. 6.—[illegible] Meeting this evening at 7 o'clock promptly.

Coughs. The sudden changes of our climate are sources of PULMONARY, BRONCHIAL, and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement.

The Medical and Surgical Institute of DR. L. J. CZAPKAY is already secured in a position which places it, as well as its proprietor, far above the assaults of envy and professional malice. In the schools of France, the highest prizes are often awarded to practitioners in this department of medical science, and they occupy, with us, an equally lofty position in the profession. Ricord is an illustrious example, a shining light among the philanthropical stars of his age in Europe, and Dr. Czapkay has fully equalled him in this country: as a proof of which, the Philadelphia College of Medicine complimented him with a diploma, and the honorary ad eundem degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for more extended labors, Dr. L. J. Czapkay has bent his earnest attention to the cure of chronic and private diseases, in which he has become so great an expert, that he is now regarded as the RICORD in this branch of his profession throughout the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive Journals. The Doctor's offices are at his Medical and Surgical Institute, on Sacramento street, corner of Leidesdorff, nearly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the [illegible] certificates of remarkable cures, in another column of this paper. Persons not wishing to lose time in corresponding, will enclose $10 in their letters, and they will get immediate attention to their cases. Address, L. J. CZAPKAY, M. D., San Francisco, Cal. LADD, WEBSTER & CO.'S FAMILY SEWING MACHINES

ARE UNEQUALLED BY ANY FOR

BEAUTY AND SIMPLICITY OF CONSTRUCTION

—AND—

Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order; should make a tight lock-stitch, alike on both sides of the material, and should sew over all material that can be sewed.

It should be able to use cotton, thread, or silk, directly from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity, and without change of the tension. It should also be able to make [illegible], gather or lace, on both the under and upper threads and with uniformity; and should have a straight needle; curved ones being liable to break.

The needle should have perpendicular motion; this is absolutely necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer, should stitch, fell, run and gather; and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam and commence sewing tightly at the first stitch and to run easily, and make but little noise.

It should have a wheel-feed; no others are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw-driver or wrench to set the needle.

It should not be liable to oil the operator's dress.

It should not form a ridge on the under side of the seam.

DR. BAKER'S PAIN PANACEA.

It is composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it, for the following diseases: If they are not satisfied with its healing properties the money will be cheerfully refunded by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and [illegible] the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhea, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea, it will take out all the inflammation and heal the sore in a short time.

A JUST TRIBUTE TO HON. JOSEPH HOLT. The Washington correspondent of the N. Y. *Times* writes under date of June 30th, as follows:

The Commission on Gun Contracts, so long in session at Washington, are about through with their labors, and the Senate has called for their report. When the work of the Commission is published, it will be seen that Hon. Joseph Holt has won a new claim on the gratitude of the nation by his patient and practical dealing with the mountain of corruption that had overwhelmed the War Department with rotten contracts last Winter. The Commission had no legal existence. It was merely an advisory Board, instituted by Secretary Stanton, to adjust amicably between contractors and the Government, the inordinate orders for arms issued under Secretary Cameron. So successful have Messrs. Holt and Owen been that contracts for 1,100,000 muskets have been reduced to about 650,000, and prices for the guns that are to be made for the Government will be in many cases largely reduced. The saving effected to the Government by this wholesome review and amicable adjustment can only be reckoned by millions. In dwelling on this important subject we are renewedly impressed with the value to the Government of a single citizen possessed of the talent and character to be useful. Mr. Holt, by his brief administration of the War Department, at the close of Mr. Buchanan's term of office, saved the Union from utter overthrow. By his speeches before vast public assemblies, at a later day, he awoke the nation to arms and thrilled it with an eloquence unknown before and now, retiring for almost a year from the noisy forum and the active arena of conflict, he patiently devotes his time to uncovering the frauds of individuals that, in their gigantic aggregate, threatened to bankrupt the Government, not only in money but in character. There is no glory—certainly no gratification of a personal kind—in this sort of work; but the millions of citizens who must pay will remember and in time reward it.

D., late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary; the late lecturer on Diseases of the Urinary Organs and Diseases of Women and Children, and Honorary Member of the Philadelphia College of Medicine.

Address, DR. L. J. CZAPKAY, San Francisco.

Of all diseases, the first great cause,
Springs from neglect of Nature's laws.

To the Afflicted!

Suffer not when a cure is guaranteed in all stages of secret diseases. Self Abuse, Nervous Debility, Syphilis in all its shapes, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance—and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are pleasant without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, as a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females are cured on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines, with full directions sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co's Office, San Francisco.

Remarkable Instance of Medical Relief

Below we publish the certificates of three of the sufferers from the jaws of disease, who, having recovered their former health, and impelled by gratitude, make known their cases and remedial agent, and their statements are authenticated by a Notary Public. The demands of society imperiously command their publicity, and we commend them to the attention of all afflicted:

Gratitude.—The undersigned, desirous of apprising those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty thus publicly to express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practices of uncontrollable passion in youth, depressed in body and mind, unable to perform even the most trifling duty imposed upon the ordinary avocations of life, I sought the advice of many physicians, who at first regarded my disease of trifling importance, but alas, after a few weeks, and in several instances months of their treatment, I found, to my unutterable horror that instead of relief my symptoms became more alarming in their tortures, and being told by one that my disease being principally confined to the brain, medicine would be of little consequence, I despaired of ever regaining my health, strength and energy, and as a last resort, and with but a faint hope, called upon Dr. Czapkay, who, after examining my case prescribed some medicines which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by the result, I resolved to place myself immediately under his care and by a strict obedience to all his directions and advice, my brain became clear, and my ideas collected, the constant pain in my back and groins, the weakness of my limbs, the nervous reaction of my whole body on the slightest alarm or excitement, the misanthropy and evil forebodings, the self-distrust and want of confidence in others, the incapability to study and want of resolution, the frightful exciting, and at times pleasurable dreams at night followed by involuntary discharges, have all disappeared, and in fact, in two months after having consulted the doctor, I felt as if inspired by a new life, that life which but a short time ago I contemplated to end by my own hand. With this View Respectful [illegible] from telling all the sufferers [illegible] competent [illegible] I deem it my duty to offer this tribute to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience that once under his care a radical and permanent cure will be effected. B. F. FILLMORE

State of California, County of San Francisco.

Subscribed and sworn to before me this seventh day of April, A. D. 1860. Signed
[illegible] JOHN MIDDLETON, Notary Public.

MARYSVILLE, June 30, 1860.

Dr. L. J. CZAPKAY, San Francisco—Sir: I have used the bottle of your medicine and do not think I shall need any more, as I feel very well except that I have not entirely got my strength yet, but am well with the appetite I have. It is just three weeks you may recollect since I called at your residence, with my constitution, as I thought, broken entirely, and never thought you would be able to cure me perfectly, but thought you might be able to do something to ease the pain in my back and head and strengthen my nerves so that I would be better, and able to go over everything. Now that you know what I expected, you may judge of my satisfaction at my complete recovery from those symptoms of the removal of those sores and blotches from my skin, and the ulcers in my throat, and the entire stoppage of those excesses which you and were principally the cause of my sickness. I can hardly tell you which is the greatest, my joy or my surprise. So, except not having fully got my strength [illegible]

I am well [illegible] Czapkay [illegible] and think myself cheaply cured. If you think anybody will be benefited you may put this letter in the newspapers. Respectfully yours, THOMAS HAYDEN

Thankfulness is the Incentive to gratitude.

CZAPKAY—Prompted by an honest desire of my heart, I wish to return to the public a true and deserved recommendation, not only as an act of scientific skill, but that of humanity also. About two years ago, I suddenly, and from causes unknown to me, was seized with a fit of epilepsy, which owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with in attempting it, soon became such that I was thought to believe as to defy the skill of any physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning, and although frequently to the anxious I yet despised the assistance of my friends and soon learned to look upon those who would render assistance to be far from danger as those whose delight to gaze at the existence of my infirmities. While in this state and having previous to my affliction, tasted the sweets of life, I once more was induced to attempt seeking aid of a physician and by recommendation I called upon Dr. L. J. Czapkay. I told him of my circumstances and of my inability to reward him for his services, regardless of which however he at once undertook my case and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present and in view of the sad results of my misfortunes I consider it due to myself and all afflicted, to make the case public, in order that those in need of medical advice may find a physician on whom every confidence can be placed.
